

CUMBERLAND CITY.

New Enterprises Springing Up—The Murderer Dowdy is at Large.

To the Chronicle:

Cumberland City has two new enterprises. Erin is racing after a building and loan association. Our little town is crowded every day with travelers and business men. The hotels are doing a splendid business. The new hotel, Green Brier, managed by Richard Morrison, is in the lead; it is the hotel for polite attendants, comfortable rooms, etc.

James W. Cook is having all necessary material placed on his lot for the purpose of building a large and elegant residence some time during the summer.

Robert Rochell has built a dwelling house on his farm very recently and will move as soon as the roads improve. He will rent his house in town to H. Lane, of Danville, Tenn.

John Dowdy, the man who killed a negro at this place several weeks ago on account of a feud of fifteen years standing, has never been heard from since making his escape from Officer H. C. Thomas. The negroes in and around here will try and offer a reward for Dowdy's arrest. They are securing the money by public subscription. If the subscription solicitor should come in contact with Tuck's slayer the money could be appropriately used in buying him a coffin.

Mrs. John H. Thomas and family, of Erin, have been the guests of Mrs. J. P. Bedwell for several days.

George Stacker and Mrs. Blanche Stacker were in Erin Monday on business.

Cumberland City, Feb. 13.

A beautiful young lady became so sadly disfigured with pimples and blotches that it was feared she would die of grief. A friend recommended Ayer's Sarsaparilla, which she took, and was completely cured. She is now one of the fairest of the fair.

Poor Humanity!

The common lot is one of sorrow say—at least—the pessimists, they who look at the worst side. Certainly what would otherwise be a bright existence, is often shadowed by some ailment that overhangs it like a pall, obscuring perpetually the radiance that else would light the path. Such an ailment, and a very common one, is nervousness, or in other words, weakness of the nervous system, a condition only irremediable where inefficient or improper means are taken to relieve it. The concurrent experience of nervous people who have persistently used Hostetter's Stomach Bitters is, that it conquers entirely supersensitiveness of the nerves, as well as diseases—so called—which are invited and sustained by their chronic weakness. As the nerves gain stamina from the great tonic the trouble disappears. Use the Bitters for malaria, rheumatism, biliousness and kidney troubles.

In Man and Woman's Own Neglect

Of themselves will be found original cause, in nine cases out of ten, of all the bodily ailments from which they may suffer. A tired feeling or slight indisposition is treated indifferently and the body left to work out its own restoration to health, minor ailments being looked on as trifles. This is the great mistake, and one which often causes long spells of sickness. Were the old adage practiced in time "An ounce of Prevention is better than a pound of Cure" all that suffering would have been spared. Eilert's Extract of Tar and Wild Cherry is the Great Panacea for the use and for the cure of Coughs, Colds, Hoarseness, Spitting of Blood, Asthma and Pains in the Chest and Lungs, it is also excellent in first stages of Consumption. Eilert's Daylight Liver Pills cure Sick Headache, Nervousness, Dyspepsia and all Bilious Complaints. Both remedies are guaranteed. For sale, wholesale and retail by Lockert & Reynolds, druggists.

What a Fortune

Is a good healthy, pearly skin. Few are aware of the short time it takes for a disordered liver to cause blotches on the face, and a dark greasy skin. One bottle of Beggs' Blood Purifier and Blood Maker will restore this organ to its natural and healthy state, and cleanse the blood of all impurities. It is meeting with wonderful success. We guarantee every bottle. McReynolds & Co., Druggist.

Do Your Guessing.

In another column will be found the card of Young Pickering & Co. These gentlemen propose to give the person a barrel of good flour who comes nearest guessing the population of the city of Clarksville as will be shown by the census report of this year. The person contesting for this barrel must live in the city limits. They also propose giving a barrel of flour to the man, woman or child who shall come nearest guessing the population of Montgomery as will appear by the census report of this year.

In making your guesses you should put your figures in a sealed envelope and direct them to Young Pickering & Co., Clarksville, Tenn., with your name and residence plainly signed to the paper; or if convenient they may be handed in at their business house on Franklin street.

All guesses must be handed in by the first day of June.

For a starter the CHRONICLE will state that the population of Clarksville in 1880 was about 3,800 and that of the county in the same year was 23,481. It must be borne in mind, however, that since that time considerable territory has been annexed to the city and the population of this territory will be included in the coming census report.

This is a chance for some one to get a barrel of good flour. While you are guessing remember that Young Pickering & Co., are selling groceries at bottom prices.

H. B. Westfall.

This gentleman has a card in this issue of the CHRONICLE calling attention to his spring stock of suitings and trousers. His prices are as low as first-class goods and workmanship can be put, and his suits he is selling for \$28, \$30 and \$35, are beauties. Call and examine his stock on Second street in the house formerly occupied by Ramey Harris. Wiley Smith is salesman and takes pleasure in showing goods.

Deafness Can't be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness, (caused by catarrh,) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free.

Cholera in Michigan.

Dr. F. D. Larke, of Rogers City, Michigan, says the epidemic of last year in Presque Isle County, in which so many persons lost their lives, was choleric dysentery instead of cholera as first reported. He used Chamberland's Colic, Cholera and Diarrhoea Remedy and says it succeeded, where all other remedies failed. Not a single case was lost in which it was used. This Remedy is the most reliable and most successful medicine known for colic, cholera morbus, dysentery, diarrhoea and bloody flux. 25 and 50 cent bottles for sale by Owen & Moore.

DISCOVERY AND TRAINING METHOD. In spite of adulterated imitations which mislead theory, and practical results of the above named memory training method, which has been used by the greatest minds of the world, and in spite of the fact that it is a simple and easy method, all who have used it, and who have seen the results of its use, are convinced that it is the only method of memory training that has ever been discovered.

After the long suffering I have endured from indigestion, I feel it a duty and pleasure to recommend your Vitalia, because of the relief and comfort it has given me. I think Vitalia Elixir and Vitalia Liver Pills are invaluable for indigestion and cholera morbus.

It is a pleasure to me to say to friends and others suffering from indigestion or dyspepsia, that your Vitalia will cure them. I say this because I have used it on myself and others, one a very distressing case, and all have been made happy by its use. When ever I meet an acquaintance with indigestion I say to him, "Be sure to use Vitalia and be cured cheap." It is the best medicine in the world for such afflictions.
